Overview | Content | User | Engagement | Performance | Insights

Insights

Overview

Overall platform engagement is stable and strong.

Users actively search and successfully reach content.

Watch time remains consistent, showing strong user interest.

Content

A limited set of content generates most of the watch time.

Many titles are searched but do not convert into watches.

Top-performing titles drive overall platform engagement.

User

Not all users search; many directly start watching content.

Users make viewing decisions with fewer searches.

User engagement patterns remain consistent across sessions.

PERFORMANCE

Search-to-watch conversion is strong.

Watch time distribution varies significantly among users.

Peak engagement is concentrated around specific content.

FINAL INSIGHTS

Platform engagement is driven by effective content discovery.

High-performing content lifts overall platform performance.

Personalization can further improve user engagement.
